

Dear Parents,

When confronted with the question, “What message will unify everyone in this city and bring them together to improve our community and to make our schools better and our children safer,” the people of Warwick responded, “Protect your family and friends.”

I am writing to inform you of an exciting new campaign spreading through your child’s school and the city of Warwick called Protect Your Circle (PYC). PYC aims to inspire people to protect and positively influence their circle of family and friends. PYC was created through the vision and ideas of students and adults in Warwick. The campaign officially kicked off on December 17<sup>th</sup>. Since then, we have seen the launch of the campaign website and the mobilization of students across all three of our high schools. Hundreds of students have already signed the campaign pledge and are proudly displaying the campaign band around their wrist.

We have achieved great success so far but there is still enormous opportunity for many students and parents to get involved and have a direct impact on the course of the campaign. In order for the campaign to continue to thrive, we need more people throughout the community to step forward and voice their opinion about ways to make Warwick a better place to live. Your ideas, suggestions and service are welcome.

I can personally attest to the high level of excitement and positive energy the start of this campaign has brought to our school. I want to see this momentum continue to grow and extend beyond the walls of our schools into the entire community.

It is our hope that you and your child will embrace and actively participate in this important campaign. If you would like to learn more or get involved in any way, please visit [www.protectyourcircle.com](http://www.protectyourcircle.com) or contact:
